## О ложных друзьях переводчика

Интерес к так называемым *ложными друзьями переводчика* не случаен. Как показывает анализ переводов, количество ошибок, допускаемых переводчиками в данной категории слов, чрезвычайно высоко. Само название *ложные друзья переводчика* является калькой с французского *faux amis du traducteur*, которое впервые появилось в 1928 году в работе французских ученых М. Кесслера и Ж. Дерокини.

В английском и русском языках ложные друзья переводчика, насчитывающие несколько тысяч слов, встречаются в пределах четырех частей речи: существительного, прилагательного, наречия и глагола. С семантической точки зрения вводящими в заблуждение оказываются слова, принадлежащие к аналогичным или смежным семантическим сферам или, во всяком случае, которые могут оказаться в сходных контекстах.

Ложные друзья переводчика при сходстве формы (звучания) в переводе могут иметь: а) совершенно иное значение, чем в исходном языке; б) более узкое или более широкое значение.

Передача слов первой подгруппы представляет трудность, потому что переводчику, естественно, приходит на ум аналогичное слово, которое, однако, в русском языке имеет иное значение. Например, английское слово *complexion* – цвет лица, а не комплекция (*телосложение*); *family* – семья, а не фамилия; *fabric* – ткань, а не фабрика; *mayor* – мэр города, а не майор; *intelligence* – интеллект, а не интелигенция, *biscuit* – сухое печенье, а не бисквит и т. д.

Примером второй подгруппы может служить английское слово *meeting*, которое далеко не всегда соответствует русскому митинг. В английском языке слово шире по значению, чем в переводе. Основное значение английского слова (производного от глагола *to meet*) – встреча, свидание. Например, *a meeting of old friends* – встреча старых друзей. Значение политическое собрание является вторичным.

Слово *pathetic*, в основном, используется в значениях трогательный, жалкий, умилительный, душераздирающий и редко в значении патетический.

Русское слово агония имеет узкое значение – предсмертельные страдания, тогда как в английском языке слово *agony* означает также мука, мучение, страдание, внезапные или сильные эмоции, т. е. возбужденное состояние: *she was in an agony of tears* – она безутешно рыдала; *she was in an agony of expectation* – она сгорала от нетерпения.

К другим примерам можно отнести прилагательные *dramatic*, кроме *драматический*, которые имеют также значение *волнующий*, *яркий, разительный*; *fantastic* – *превосходный, чудесный, странный, причудливый, сказочный, фантастический*; *original* – *подлинный, первоначальный*, а не только *оригинальный* и многие другие.

И наконец, нужно учитывать еще и стилистический фактор и эмоциональную окраску слов. Например, английское слово *career* является нейтральным или даже положительным явлением, в то время как в русском языке у слова *карьера* присутствует негативный оттенок. Особенно это очевидно в производных словах: *career-maker* (положительная коннотация, человек хочет добиться успеха) и *карьерист* (отрицательная коннотация, человек, который готов пойти на все ради продвижения).

Другим наглядным примером может послужить еще одна пара *routine* – *рутина*: английское слово является нейтральным и обозначает *обычный порядок; общепринятая практика; определенный режим*. А русское слово *рутина* всегда подчеркивает негативную окраску, это то, что *надоело, неинтересно и т.д.*

Английское слово *compilation* (*собирание, составление*) вполне нейтрально, а русское *компиляция* имеет оттенок неодобрительности, означая *несамостоятельную работу, основанную на механическом использовании чужих материалов*.

Эмоционально-экспрессивно выраженные окраски особенно часто проявляются в переносных значениях. Примером может служить употребление таких русских слов, как *субъект, тип, фрукт, элемент, экземпляр* в значении *человек, личность*. Все эти слова, кроме закрепленности за непринужденно-разговорной или даже фамильярно-обиходной речью, характеризуются отчетливой неодобрительной окраской, которую при переводе на английский язык приходится передавать разнообразными отрицательными эпитетами при словах *individual, person* (тот еще фрукт – *a detestable person*) или стилистически более выразительными единицами, например, *fellow*.

Итак, даже если вы видите знакомое слово, которое на первый взгляд представляет собой интернациональное слово, не поленитесь проверить его по словарю, чтобы избежать искажения смысла при переводе.

## Упражнения

**Упражнение 1.** Найдите все возможные значения следующих слов и переведите предложения, обращая внимание на «ложных друзей переводчика». Переведите с английского языка на русский.

### *Academic*

- 1) The academic year usually begins in September.
